

Standard Color:White,Silver,Black

Product Features

- The outer casing is made from an impact resistant, flame resistant ABS plastic with antimicrobial coating.
- An intelligent heating system will detect the ambient temperature of your washroom, automatically adjust the airflow temperature to keep running costs right down. Automatically adds heat to the airflow if it senses a room temperature drop below 25°C.
- It has a 2-level filter protection system , a pre-filter and a HEPA filter capture airborne bacteria to ensure your users hands are dried using clean, hygienic air particles.particles.washrooms.
- Using the heated model on the high powered option provides incredible drying times of between 9 and 11 seconds.
- The modern design and futuristic LED lighting make this a very popular addition to the most contemporary of washrooms.
- A water collection system (800ml) collects any excess water to keep your washroom clean, tidy and safe.
- HEPA filter is sterilised from microbes, bacteria and moulds by internal UVC technology, prolonging its effectiveness and preserving its cleanliness.

Model A : Powered by a brushless, carbon free motor means there are fewer parts to wear out, replace or break, meaning this hand dryer motor has a long life reach to 7-10 years.

Model B : Powered by a high speed reliable carbon brush motor .

Technical Specification

Body Material	ABS
Voltage	220-240V
Frequency	50/60Hz
Total Power	800-1650W
Motor Power	800W
RPM	21000
Electrical Isolation	Class I
Hot & Cold Switch	Yes
Current	7.2A
Air Speed	95m/s
Dimensions (mm) W x H x D	300x624x200
Cover thickness	3mm
Air Temperature (10 cm distance/21°C)	48°C
Net Weight	7.5kgs
Noise Level In Db(at 2m)	72
Water Splash Proof	IPX4
Auto Cutoff	30s
